

Buying tickets online.

A new way to buy Witney Music Society concert tickets is now available!

You can purchase your tickets online paying by debit or credit card.

On each concert page you will find a link to WeGotTickets. Clicking on the link will take you directly to the relevant page at WGT for that concert.

WeGotTickets use a secure payment server to process payments, this ensures that all transactions are as secure as possible. You can pay for your tickets using a wide range of credit or debit cards. They currently accept: JCB, Visa Credit, Visa Debit / Electron, MasterCard, Solo and Maestro.

WeGotTickets work directly with event organisers and venues, who allocate tickets for them to sell online. They launched in 2002, and today work with over 2000 venues and event organisers around the UK, selling hundreds of thousands of tickets every year.

Witney Music Society have allocated a number of tickets for each concert to be available for sale through WeGotTickets, and they are offered for sale online at the standard price for the concert, with some of the lowest booking fees in UK ticketing. (Booking fee is £1 or 90p per ticket for full/concession ticket respectively)

Instead of sending tickets to you in the post they give you a unique booking reference which is displayed on your screen once you've bought your tickets. They also email you confirmation of your booking reference shortly after your order has gone through, however the booking reference itself, with possibly some ID is all you'll need to gain entry to the concert. Tickets can be purchased up to 6pm on the day of the concert.

Any personal information collected from you by WeGotTickets in processing your order is only shared when necessary to complete that order; any other use of that information has to be okayed by you, the customer.
